

Functions		Room Air Purifiers		
		Model 681	Model 688	Model 388
Negative-Ion Generator	Highly effective in removing smoke, allergens, dust, bacteria and odors from the air.	X	X	X
Ozone	Kills germs and odors.			X
Sponge Pre-filter	Removes coarse and fine dust to prolong the life of fan motor and subsequent filters.		X	
Photo-catalyst Pre-filter	Eliminates over 90% of particle mass to prolong the life of the fan motor and subsequent filters. Also decomposes harmful gases.	X		
HEPA Filter	Controls very fine particles (smaller than 0.3 micron), allergens, bacteria and viruses at a 99.97% purification rate.	X	X	X
Activated Carbon Filter	Absorbs over 100 gases, pollutants and odors, especially volatile organic compounds.	X	X	X
Multi-catalyst Filter	Absorbs and decomposes harmful gases.		X	
Herbal Sterilization Filter	Broad spectrum antibacterial efficiency (up to 97.3%). Also restrains the growth and reproduction of viruses.	Optional		
Fragrance	Surrounds the room with refreshing and relaxing aroma.	X	X	X
Essential Oil	Drifting aroma to enhance your home or office.	Optional		
Auto/Manual Selection	User friendly. Allows you to control the unit manually or set on automatic control.	X		
Air Quality Sensor	Detects air pollutants and self-adjusts the fan speed accordingly.	X		
Filter Change Indicator	Reminder to change filter, enhancing purification efficiency.	X		
Remote Control	User friendly. Works to a distance of 16 ft.	X		
Timer	User friendly.	X (2-4-8 hrs.)	X (1-2-4-8 hrs.)
